## I Grow the Best — Discard the Rest

---

Greetings . . . To My Friends:

It is with pleasure that I present you with this, my Dahlia Catalogue for 1949. Your generous and kind support is thoroughly appreciated and inspires me to continued effort to make available to you only the best.

This catalog would not be complete if I were not to take advantage of the opportunity to thank you for your many letters telling of various successes obtained from stock purchased from me. I am grateful to those who have been able to visit my gardens as well as those who have inspected my exhibits at the American Dahlia Society Shows, and many other shows we attend, because I feel my dahlias speak best for themselves.

To those who are familiar with my stock, no introduction is necessary and you have my pledge that the same quality will not only continue but improve if such is possible. To those who have not tried my service this is an invitation, an invitation that may prove a real opportunity for you to realize something you may not have been able to obtain elsewhere and no order is too small nor is any contract too large, I am pleased to serve you.

ALBERT PARRELLA.

### IMPORTANT NOTICE — DO NOT OVERLOOK

Due to the limited space we are compelled to be brief with our descriptions. However, we want our patrons to know that the varieties listed in this Catalog are either Honor Roll Certificate Winners or has proven with us to be truly outstanding. Not only that, but the varieties offered are reliable in every respect, good growers, fine producers, insect resisting foliage and most of them are of large size blooms, and true prize winners. If you are interested in large size dahlias, you surely are not going wrong by ordering from us. This may be of interest to you to know that we do not force our dahlias for size, but we are gratified to know that our customers secure the lion's share of prizes at the Show.

### VISITORS ARE WELCOME

You are cordially invited to bring along as many friends as you possibly can to my gardens at any time after August 15th and see this magnificent sight. You are under no obligation to buy, but welcomed and I will be as happy to see you as you will be to see this magnificent collection of gorgeous massive flowers in all of the colors, shades, and tints of the rainbow.

I will have over 300 varieties, most of them Honor Roll dahlias, as well as many promising seedlings, and many new ones sent by other growers for trial and that have not been released for sales as yet, as well as many novelties.

We want to thank those who have sent to us Seedlings for trial this past season. Assure you we have given them the best of attention. We would appreciate receiving more of them for the coming season providing they are good. We will do all we can to put them over.

### TEN BRIEF SUGGESTIONS TO THE AMATEUR

#### ON HOW TO GROW BETTER DAHLIAS

1. Select easily grown varieties and those giving full satisfaction.
2. Prepare the selected planting spot well and place the supporting stake.
3. Dig a hole next to the stake, about 10 inches in diameter and 7 to 8 inches deep, and place one handful of bonemeal in the hole, or any other recommended fertilizer and mix thoroughly with the soil before planting.
4. Place roots in flat position with the sprout or "eye" facing upwards. Cover lightly with about 2 inches of soil. In doing this be careful not to damage the sprout. As the plant grows, fill around the stem with soil.
5. Do not plant too early. At times, too early planting spoils good roots. I would suggest planting from June 1st on, except in climates where a short growing season is prevalent. In that case use your own judgment.
6. Keep the soil well cultivated throughout the season, and prevent weeds from outgrowing the plant.
7. Water plants during hot weather at least once a week. Do not merely sprinkle them, but soak them. This must be done after sundown.
8. Tie the plant to the supportive stake with soft cord, at distance of 12 inches apart. This is done as an added security against destruction by wind and storm. Spray with any reliable parasiticide at least once every two weeks.
9. About August 1st, scatter a handful of bonemeal about 6 inches around the stem and rake it gently into the soil. Other fertilizers may be used if desired. Do not use excessive amounts of fertilizer as injury to the roots will result.
10. About August 15th, the same treatment as above is applied. Disbudding at this time aids in the formation of bigger and better flowers and longer stems. This should insure good results. If any other information is desirable, I will gladly forward you the same.

**A NEW BOOK ON DAHLIA CULTURE**

Publisher: Orange Judd Publishing Co.

Read what the critics say:

This is an ambitious title but the author covers the subject thoroughly in a masterful style.—Gardeners' Chronicle of America.

This book will be a useful guide to both professional and amateur grower, as it is written simply and directly, with a thorough knowledge of the subject.—Florists' Review.

Here is contained a most comprehensive history of the dahlia, replete with pictures from early publications, tracing the history of this exotic flower from its first findings in Mexico through its introduction into Europe and eventually to the United States.—New York Herald-Tribune.

The chapter on culture is most complete and covers all the aspects that any grower will look for. Here are all the details all growers need.

Mr. Riley gives some very important pointers on the care of plants and cut blooms that are to go to the show table. All the necessary suggestions that will help the grower to win blue ribbons are set forth in detail.—New York Herald-Tribune.

I have never read a more sensible book on the growing of one genus. Golden Gardens. The entire volume is highly recommended.—Gardeners' Chronicle of America.

## JUST A FEW OF OUR MANY TESTIMONIALS

PARRELLA DAHLIA GARDENS

Dear Sir:

There may be better bi-colors than Wanda Meade, but after growing it last season it becomes a case of "that I gotta see." I expect I will want more Wanda Meades. May I receive your '48 catalog?

Yours Truly,

A. E.,

Dear Mr. Parrella:

Last year for the first time we had a real nice display of Dahlia blooms. That is fine enough to be proud of and to feel that our efforts had been rewarded. We followed your instructions in every way.

Sincerely,

A. D. M.

Birmingham 9, Ala.

Please let me tell you that from a \$5.00 package of seed purchased from you last year I grew dahlias that were a revelation — almost unbelievable! They were by far the most beautiful dahlias I have ever seen, regardless of price, and (from seed).

Please accept my sincere thanks. I am thrilled beyond words. Let me say, I never opened a package more beautiful. It came thru in perfect condition. It's a pleasure to do business with a high class concern who I think have the finest grade Dahlias in the U. S. A.

Dear Mr. Parrella:

I am very much pleased by the unusual selection of roots that have just come. I have always had very fine ones from you and have given your name and your catalog to others.

Thank you very much.

Sincerely yours,

H. H. F.

South Glens Falls, N. Y.

Kindly include a copy of your 1948 catalog as I have lost the one received and used the 1947 one for items listed above.

With thanks again for the courtesy and attention that you gave my sister, brother-in-law and myself on our afternoon visit to your gorgeous dahlia fields last August. It surpassed all of our expectations. Such a variety of bloom and contrast in color. A truly rare treat.
